Protect Your Car's Paintwork

The all NEW V-KOOL Paint Protection Film offers premium protection against minor scratches, accidental abrasion and the environment.

V-KOOL™
Paint Protection Film

Stay Beautiful

Solvent-Guard

Resistant to solvents and alcohol-based liquids, the film is designed to guard a vehicle's paintwork from damage caused by corrosive substances.

Colour-Protect

Look new longer. The film is formulated for excellent UV, heat and water resistance to preserve paintwork.

Opti-Clear

The superior optical clarity of the film intensifies the original paintwork, creating a mirror-like shine.

Superior Protection

Aqua-Coat™ Hydrophobic Protection

Proprietary advanced technology that delivers the best possible liquid repellency performance that keeps the car looking cleaner, longer.

Tru-Heal Technology

Advanced self-healing layer that, with applied heat, renews the film back to its original state. Never worry about minor scratches again.

Stain Shield

Superior Stain protection from bug splats, bird droppings, tree sap stains that decolour bodywork paint.

You deserve the best
